The entire form must be filled out in order for Wag Atlanta to administer medications to your pet properly. We rely on this information and not any verbal instructions or previous instructions for proper administration. All medications and supplements must be in a pill sorter and clearly labeled for Wag Atlanta to administer them.

I understand that Wag Atlanta has basic medication administration training and is not a veterinarian. If your pet requires monitoring for an illness, we will not be able to board your pet and recommend a vet boarding service. I understand there is a \$3 per day fee for medication administration for each dog.

I have read and understand the above and have clearly and completely filled out my pet's medication information.
